Panelicity® Series 36

Trade-In Program

Panelicity® Series 36 is a powerful process panel controller in a small package with pre-defined displays, alarms, trends, and standard industrial control strategy templates. It is designed to simplify the migration of older legacy controllers to modern technology.

Trade-in your old 1/2 DIN (3x6) controllers for credit and migrate to a new Panelicity. The trade-in value varies based on the type and condition of your controller.

Eligible controllers for trade-in:

- Siemens Moore 351, 352, 352P,353, 372, 382, 383
- Foxboro 760CNA, 761CNA, 762CNA
- Honeywell PC6301, PC6302, PC6303
- Preferred Instruments PC-III
- Yokogawa YS-131, YS-150, YS-170
- Taylor/ABB/MicroMOD MOD 30, MOD30ML
- F&P/Bailey/ABB/MicroMOD MicroDCI
- Bailey/ABB/MicroMOD CLC01, CLC03, SLC01, 53MC5000, 53SC6000

Contact us with the manufacturer name, model, detailed part number, and quantity of the controllers you would like to migrate. We will send you a trade-in quotation.
